# Reel In A Box, Single-Fiber, Tight-Buffered Cable, Plenum 

## 2.9 mm diameter, $50 \mu \mathrm{~m}$ multimode (OM4)

Reel in a Box is Corning's innovative packaging solution for small reels of fiber optic cable in all inside plant applications, such as collocation data centers and wireless projects. This packaging solution provides features that enable our customers greater efficiencies than before.

Corning single-fiber cables are designed for interconnect applications. A $900 \mu \mathrm{~m}$ buffered fiber is surrounded by aramid yarn strength members and a flame-retardant jacket. Dielectric strength members offer mechanical durability and the flame-resistant jacket meet requirements of the National Electrical Code ${ }^{\circledR}$ ( $\mathrm{NEC}^{\circledR}$ ) Article 770.
