

# Reel In A Box, Zipcord Tight-Buffered Cable, Plenum

2 F, 62.5  $\mu$ m multimode (OM1)

CORNING

Reel in a Box is Corning's innovative packaging solution for small reels of fiber optic cable in all inside plant applications, such as collocation data centers and wireless projects. This packaging solution provides features that enable our customers greater efficiencies than before.

Corning zipcord cables are designed for interconnect applications. Two 900  $\mu$ m buffered fibers are surrounded by aramid yarn strength members and a flame-retardant jacket. This cable design offers mechanical durability and flame resistance that meet the requirements of the National Electrical Code® (NEC®) Article 770.

## Features and Benefits

"Countdown" print indicates available cable remaining on the reel providing easier inventory management

Stackable boxes make storage more manageable

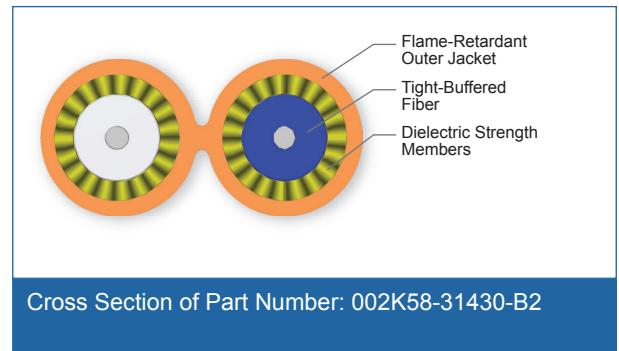

Smaller reel offerings mean smaller cable lengths than would normally be available

Cable cutting at Corning lowers operating expenses for our distributors and end users

## Standards

**Approvals and Listings** National Electrical Code® (NEC®) OFNP, CSA FT-6, ICEA S-83-596

**Flame Resistance** NFPA 262 (for plenum, riser and general building applications)
