216 F, 62.5 µm multimode (OM1)

CORNING

ALTOS[®] double-jacket, single-armored cables are rugged, armored cables designed for direct-buried installation while suitable for duct and aerial (lashed) installation. The loose tube design provides stable performance over a wide temperature range and is compatible with any telecommunications-grade optical fiber.

Features and Benefits

Flexible, craft-friendly buffer tubes

Facilitate easy routing in closures

Two jacket layers and two steel tape armor layers Provide superior rodent resistance for direct-buried applications

Innovative waterblocking design Provides efficient and craft-friendly cable preparation

Dielectric central strength member

No preferential bend and requires no bonding or grounding

Medium-density polyethylene jacket

Rugged, durable and easy to strip (while providing superior protection against UV radiation, fungus, abrasion and other environmental factors)

Standards

| Approvals and Listings | USDA Rural Development Programs |
|--------------------------|------------------------------------|
| Design and Test Criteria | Telcordia GR-20, ICEA-640 |

Cross Section of Part Number: 216KU5-T4130A20
