

# LSA-PLUS® Series 2

Connection and Disconnection Modules and Accessories

1<sup>st</sup> Edition

## LSA-PLUS® Series 2

### Connection and Disconnection Modules and Accessories

---

A technically and commercially superior quick connection system for all state-of-the-art networks. Contacts that ensure the highest degree of reliability even under the most adverse environmental and climatic conditions. A completely reliable, gas-tight connection between the contact and conductor. That's LSA-PLUS® technology.

The LSA-PLUS System family consists of a comprehensive and diverse range of high density, standard and special modules, mounting hardware, test and patch cords, accessories and protection devices.

Voice, high-speed data transmission via ISDN, ADSL, VDSL, cable TV, Internet access, mobile networks: working in conjunction with TE Connectivity you will be able to confidently face the issues created by vast amounts of network traffic. In addition, TE quality ensures total end-customer satisfaction. TE copper connectivity solutions are designed to deliver fast, safe and reliable transmission.

# LSA-PLUS® and LSA PROFIL® Connection Modules

## Series 2 Eight- and Ten-Pair Modules

### FEATURES & BENEFITS

- Based on genuine LSA-PLUS® connection technology
- Available in eight- and ten-pair configurations with parallel test access or overvoltage protection contact
- LSA-PLUS modules mount on back mount frames
- LSA PROFIL modules mount on profile rods (8-pair modules: 75mm spacing between rods; 10-pair modules: 95mm spacing between rods) or on back mount frames
- Suitable for use in all xDSL and ADSL2+ circuits
- Robust long-term environmental stability allows both indoor and outdoor installation
- Supports all LSA-PLUS Series 2 accessories
  - Overvoltage protection magazine
  - Labels
  - Test and connection cords

# LSA-PLUS® and LSA PROFIL® Disconnection Modules

## Series 2 Eight- and Ten-Pair Modules

### FEATURES & BENEFITS

- Eight- and ten-pair modules with disconnection points for opening the line, testing in both directions or insertion of graded protection elements
- Based on genuine LSA-PLUS® connection technology
- LSA-PLUS modules mount on back mount frames
- LSA PROFIL modules mount on profile rods (8-pair modules: 75 or 95mm spacing between rods; 10-pair modules: 95mm spacing between rods) or on back mount frames
- Suitable for use in all xDSL and ADSL2+ circuits
- Robust long-term environmental stability allows both indoor and outdoor installation
- Supports all LSA-PLUS Series 2 accessories
  - Overvoltage protection magazine
  - Labels
  - Test and connection cords

## LSA PROFIL® Series 2

### Disconnection Module for 2 Mbps Networks

#### DESCRIPTION

The expansion of mobile communications networks, the introduction of new mobile phone systems (3G, UMTS, 4G, LTE) and the steady growth of IP networks, have created a demand for bandwidth in both access and transmission networks. This in turn causes the extension of existing hubs and the installation of new hubs.

The ADC KRONE PROFIL system provides a foundation for networks served by 2 Mbps copper pairs with impedance of 120 Ohms.

#### FEATURES & BENEFITS

- Disconnection module for the distribution of eight shielded pairs
- Applications include:
  - Internet backbone
  - GSM networks
  - UMTS networks
- Complies with ITU-T G.703 recommendations (physical/electrical characteristics of hierarchical digital interfaces)
- Category 6-rated NEXT performance
- Compatible with a wide-range of LSA-PLUS® Series 2 accessories
- Accessories disconnect only the Line A/Line B contacts, while the shielding remains interconnected. Plugs and cords are available to disconnect the shield, should that be required
- Ports are marked on the module

#### ORDERING INFORMATION

Description	Catalog Number
<b>LSA PROFIL</b> Series 2 8-pair disconnection module for shielded twisted pair	
With left and right jumper guides	7015 1 008-01
With 3 wire guides for jumpers to the left	7015 1 004-50
With 3 wire guides for jumpers to the right	7015 1 005-50
<b>Accessories</b>

Cable support with cable mounting and shield contact for 8 cables with 1 pair Depth: 3mm	7015 1 009-11
Universal cable support for 1-, 2- and 4-pair cables. Depth: 3-6mm	7015 1 009-21

# LSA-PLUS® and LSA PROFIL® Modules

## Mounting and Labelling Accessories

---

### Back mount frames

#### SELECTION CRITERIA

Calculating necessary installation space: Back mount frame length = Module spacing x (number of modules – 1) + 20mm

**Frame depth:** based on conductor diameter of 0.5mm, including insulation of 1.5mm. Deeper frames must be selected for wires measuring 0.6mm – 0.9mm, or when the cable is fed through the frame bundle by bundle.

- Up to 70 pairs: >12mm
- Up to 100 pairs: >22mm
- Up to 200 pairs: >30mm
- 200 pairs or greater: >50mm

#### MODULE SPACING:

- 25mm with jumper guides on one side
- 22.5mm with jumper guides on two sides
- 27.5mm with jumper guides on one side, when wire with thicker insulation is used

#### HOLE PATTERN:

- Hole pattern 1: Central cable entry. Used with mounting adapters for wall mounting or for installation in customer premises connection boxes
- Hole pattern 2: Right-side cable entry, for universal use with asymmetrical mounting

## Back Mount Frames with 22.5mm and 25.0mm Module Spacing

## LSA-PLUS® and LSA PROFIL® Modules

Back Mount Frame with 27.5mm Module Spacing

# LSA-PLUS® and LSA PROFIL® Modules

## Back Mount Frame

### FEATURES & BENEFITS

- Accommodates from 10 to 40 Series 2, 10-pair modules, plus an additional termination module, label holder or earth-wire module
- Blocks of 100 pairs separated from each other (spacing between groups of 10 modules is 30mm)
- Overall width: 104.5mm
- Module spacing: 22.5mm
- Depth of cable space/frame: 50mm

### ORDERING INFORMATION

# LSA-PLUS® and LSA PROFIL® Modules

## Modular Back Mount Frame

### FEATURES & BENEFITS

- Total of 45 module mounting slots in two sections (one with 22 slots, one with 23)
- Five pre-stressed break-off points between the module's slits can be cut with a saw, allowing the frame to be cut on-site to the desired length
- Back of the frame contains both hole patterns 1 and 2
- Use of the maximum (45) mounting slots is recommended when a total of 100 pairs are to be terminated on a frame with a cable space depth of 22mm

### ORDERING INFORMATION

# LSA-PLUS® and LSA PROFIL® Modules

## Back Mount Frame for Cable Head Installations

### FEATURES & BENEFITS

- For installations with limited or narrow space
- Two sizes, accommodating five or ten LSA-PLUS® Series 2, 10-pair modules plus an additional termination module, label holder or earth-wire module
- No mounting materials (screws, nuts, washers) are included

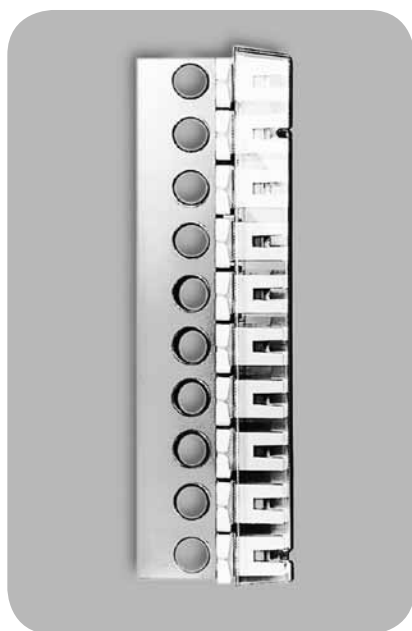

### ORDERING INFORMATION

Description	Catalog Number
Back mount frame for Series 2, 10-pair modules, plus 1 additional module or label holder	
Size 1, total of 11 mounting spaces	6092 2 024-01
Size 2, total of 6 mounting spaces	6042 2 001-00

# LSA-PLUS® and LSA PROFIL® Modules

## Dust Cover

### FEATURES & BENEFITS

- Transparent cover protects LSA-PLUS® Series 2, 10-pair modules from dust and accidental disturbance of terminated cable
- The deeper version allows installation of overvoltage protection magazine

### ORDERING INFORMATION

Description	Catalog Number
Shallow dust cover	
100 pairs	6092 3 016-00
50 pairs	6092 3 016-01
10 pairs	6089 2 097-00
Note: if more than 1 cover is used, module spacing must be greater than 22.5mm	
Deep dust cover. Allows installation of overvoltage protection magazine	
100 pairs	6092 3 034-10
50 pairs	6092 3 034-11

## LSA-PLUS® and LSA PROFIL® Modules

Mounting accessories for Back Mount Frames

### ORDERING INFORMATION

Description	Catalog Number
Cable clamp kit for Series 2 cable head back mount frame Includes 4 clamps, 1 sheath contact screws, 1 clip	6092 2 017-00
Edge protection strip. Placed over unused positions in back mount frame	
120mm	6092 3 017-00
60mm	6092 3 017-01
Cable protection rings for 15mm diameter cables. Mount on rear of back mount frame to protect cable insulation	6050 3 044-00

## Profile Rod Frames

### FEATURES & BENEFITS

- Profile frame consists of 2 stainless steel profile rods, each 12mm in diameter and profile holders 46mm in depth
- Profile rod frame with 95mm distance between rods accommodates:
  - Series 2, 10-pair LSA PROFIL modules
  - Series 2, 8-pair LSA PROFIL modules
  - NT, 10-pair LSA PROFIL modules
  - HighBand® modules
  - HD 180 modules
- Profile rod frame with 75mm distance between rods accommodates:
  - Series 2, 8-pair LSA PROFIL modules
  - NT, 8-pair LSA PROFIL modules
  - Series 10 LSA PROFIL modules

## Individual Profile Rods and Rod Holders

### FEATURES & BENEFITS

- Individual rods and rod holders may be ordered to construct a custom, modular frame
- Rod holders with a depth of 86mm are available: deeper profile frames are used when cable support elements and cable guides are used
- All profile holders accept 12mm diameter profile rods
- One profile holder should be placed for each 500mm of profile rod

## Insertion Tools

### LSA-PLUS® Insertion Tools

#### Insertion Tool with Sensor

- Used with all LSA-PLUS® modules, as well as with RJ5 jacks and HighBand® modules
- For termination of wires with conductor diameter range 0.35 to 0.9mm; overall diameter range 0.7 to 2.6mm
- Features a sensor that detects the end of a wire when a termination has been completed. This feature is deactivated when a second lead is terminated in a contact
- Scissors can be deactivated so that jumper can be through-connected to neighboring contacts
- Service life
  - 0.4mm wire: 200,000 connections
  - 0.6mm wire: 100,000 connections
  - 0.8mm wire: 50,000 connections
- Also features cutting inhibitor clip, extraction hook and blade

#### Simple Insertion Tool

- Used with all LSA-PLUS® modules, as well as with RJ5 jacks and HighBand® modules
- For termination of wires with conductor diameter range from 0.35 to 0.9mm; overall diameter range 0.65 to 2.6mm
- No scissors mechanism

## Accessories: Plugs and Cords

### Test Cord

The two-pole test cord features a 4mm double socket and can be used for almost all LSA-PLUS systems, including NT modules, Series 2, Series 8 or Series 10 modules, as well as two- to eight-pole PCB modules. The cord is used whenever the module's existing test access is already occupied by another plug (such as changeover adapters and/or disconnection adapters) or when a module has no special test access. The spring test contacts connect directly to the wired LSA-PLUS contact. Clamping ribs within the LSA-PLUS contact slot ensure that test plugs are securely retained.

<b>2-pole test cords</b>	
For use with LSA-PLUS and LSA-PROFIL modules	
1 LSA-PLUS plug, (2) 4mm banana plugs	
2.0 m	6624 2 061-02
6.0 m	6624 2 061-06
1 LSA-PLUS plug, (2) 4mm banana sockets	
0.20 m	6624 2 040-09
2.0 m	6624 2 040-02
<b>2-pole test cords 1 side access with disconnection function</b>	
For use with LSA-PLUS or LSA PROFIL disconnection modules	
1 LSA-PLUS plug, (2) 4mm banana plugs	
2.0 m	6624 2 521-02
6.0 m	6624 2 521-06
1 LSA-PLUS plug and (2) 4mm banana plug sockets	
0.20 m	6624 2 320-09
2.0 m	6624 2 320-02
<b>4-pole test cord with disconnection function</b>	
For use with LSA-PLUS or LSA PROFIL disconnection modules	
1 LSA-PLUS plug and (4) 4mm banana plugs	
2.0 m	6624 2 541-02
6.0 m	6624 2 541-06
1 LSA-PLUS plug, (4) 4mm banana plug sockets	
0.20 m	6624 2 340-09
6.0 m	6624 2 340-06

# LSA-PLUS® and LSA PROFIL® Series 2 Modules

Accessories: Plugs and Cords

## Connection Cords

# LSA-PLUS® and LSA PROFIL® Connection Modules

## Series 2 Eight- and Ten-Pair Modules

### ORDERING INFORMATION

Description	Catalog Number
<b>2-pole connection cord</b> For parallel connections. Features (2) 2-pole plugs	
2.0 m	6624 2 081-02
6.0 m	6624 2 081-06
<b>4-pole connection cord with disconnection function</b> For use with LSA-PLUS and LSA PROFIL disconnection modules. Features (2) 4-pole plugs, with a/a and b/ cross-connected	
2.0 m	6624 2 821-02
6.0 m	6624 2 821-06
<b>3-pole connection cord with disconnection function</b> For use with LSA-PLUS and LSA PROFIL disconnection 6- and 8-pair modules with shielding. Features (2) 3-pole plugs, with abc and abc cross-connected	
2.0 m	6626 2 801-02
6.0 m	6626 2 801-06
<b>6-pole connection cord with disconnection function</b> For use with LSA-PLUS and LSA PROFIL disconnection 6- and 8-pair modules with shielding. Features (2) 6-pole plugs, with 1:1 wiring	
2.0 m	6626 2 901-02

# LSA-PLUS® and LSA PROFIL® Connection Modules

## Series 2 Eight- and Ten-Pair Modules

### ORDERING INFORMATION

Description	Catalog Number
<b>10-pair, 40-pole plug with PCB insert</b> For use with 10-pair LSA-PLUS and LSA PROFIL disconnection or switching modules. For use with AWG 28 to AWG 24 stranded wire, cable diameter up to 12mm <b>Includes:</b> <ul style="list-style-type: none"><li>• Release device (Catalog number 6089 1 251-00)</li><li>• Cable ties for strain relief</li><li>• 2 feed-in possibilities</li><li>• Separate earth contact</li><li>• Plastic label: 71 x 18mm</li></ul>	6697 1 002-10
<b>10-pair release device</b> For use with the 10-pair, 40-pole plug with PCB, or 8- and 10-pair overvoltage protection magazine. Includes 18 x 6.5mm label	6089 1 251-00
<b>Disconnection adapter</b> Opens jumpered line and accesses the line from one side	
1-pair	6089 2 098-00
10-pair, printed 1...0	6089 2 099-00
<b>Changeover adapter</b> For interruption-free changeover of wiring on connection and disconnection modules	
1-pair	6089 2 093-00
10-pair, without printing	6089 2 081-01
10-pair, printed 1...0	6089 2 081-02
