EDGE™ Housing

1 rack unit, holds up to 8 EDGE modules or panels

CORNING

EDGE™ HD solutions are high-density preterminated optical cabling solutions offering industry-leading connector density. With unprecedented finger access, there is no need for additional tools enabling faster moves, adds and changes (MACs).

Features and Benefits

Universal wired components
Enable moves, adds and changes without polarity concerns; provide a simple migration path between 2-fibre and parallel optic applications

Sliding drawers
Allow unprecedented finger access, easier jumper/harness routing and port identification

Integrated strain-relief plate can rotate 90º
Allows for rear cable entry direction, as well as the traditional side cable entry

Removable top covers on the 1 U and 2 U housings
Provide easier access to modules and panels
